SOFTWARE ENGINEER   📍 **Mississauga, ONTARIO, CANADA**

PROFILE

I have spent the past three years developing my skills so I can curate what I imagine as a reality. If you have a dream to create a digital system, I can be your go-to guy to make it a reality. I love sitting on my computer under a tree in my garden and code. If you don't find me on the computer, I would be either taking care of plants in the garden or hiking or taking a nap.
